Psychiatry, 2.0 hp

Grading scale: AF

Ear Nose and Throat diseases, 2.5 hp

Grading scale: AF

Teaching methods

Lectures and seminars.

In case of absence from a compulsory activity, the student is responsible for contacting the examiner for a complementary assignment.

The examiner decides if, and how, absence from compulsory parts can be compensated. Study results cannot be reported until the student has participated in compulsory course elements or compensated for any absence in accordance with instructions from the examiner.

Absence from a compulsory activity may result in that the student can not make up for this element until next time the course be given.

Examination

Written examination as well as participation in compulsory seminar (state in timetable)

Written examination is corrected anonymously.

At failed result on written examination have student right to further five examinations. The third examination is the following regular examination in the course.

Submission of a blank exam paper is regarded as an examination.

In case a student is registered for an examination but does not attend, this is not regarded as an examination.

If there are special reasons, or need for adaptation for a student with a disability, the examiner may decide to depart from the syllabus's regulations on examination form, number of examination opportunities, possibility of completion or exemption from compulsory educational elements, etc. Content and learning objectives as well as the level of expected skills, knowledge and abilities must not be changed, removed or lowered.

Transitional provisions

Examination can be carried out according to an earlier literature list during a period of one year after the date of a renewal of the literature list. Examination will be provided during a period of one year after a possible closing of the course.

Other directives

Course evaluation will be carried out according to the guidelines established by the Committee for higher education.

The course may be given in English, if exchange students attend.

The course may not be credited in the degree at the same time as the completed and approved course, whose content fully or partially corresponds to the content of the course.
