Course syllabus for

Pharmacology and Pathology 2, 7.5 credits

Farmakologi och sjukdomslära 2, 7.5 hp

This course syllabus is valid from autumn 2014.

Please note that the course syllabus is available in the following versions:

Autumn2012 , Autumn2014 , Autumn2015 , Autumn2017

Course code	2DS006
Course name	Pharmacology and Pathology 2
Credits	7.5 credits
Form of Education	Higher Education, study regulation 2007
Main field of study	Not applicable
Level	AV - Second cycle
Grading scale	Pass, Fail
Department	Department of Laboratory Medicine
Decided by	Programnämnden 3
Decision date	2012-09-26
Revised by	Programme Committee 9
Last revision	2014-04-10
Course syllabus valid from	Autumn 2014

Specific entry requirements

Qualification as a nurse certified by the National Board of Health and Welfare

Objectives

Part 1: Pharmacological application in special disease states, 4.5 higher education credits.

On completion of this part, the student should be able to apply and

- integrate knowledge in pathology in the identification of medical conditions and disease problems within the indications established by the Swedish National Board of Health and Welfare
- combine knowledge in special pharmacology and disease theory to be able to assess needs of drugs in the current situation
- understand factors as for instance, gender, age, pharmacogenetic and environmental, that govern choice of and assessment of drugs
- integrate knowledge in order to follow up, evaluate and complete a drug treatment where the patient is made to participate in the decision-making process

Part 2: Drug prescribing, 3 higher education credits

On completion of this part, the student should be able to:

- carry out drug prescription to a patient in accordance with current guidelines
- describe and understand the principle for evaluating drugs
- carry out a correct documentation of one's prescription

On completion of the course, student should be able to prescribe drugs to a patient in accordance with the regulation of the Swedish National Board of Health and Welfare (SOSFS 2001:16) about qualification requirements for nurses in the prescription of drugs.

This course should, together with Pharmacology and pathology 1, lead to qualification requirements for a specialist nurse to apply for a prescription right according to the regulation of the Swedish National Board of Health and Welfare (SOSFS 2001:16) about qualification requirements for nurses in the prescription of drugs.

Content

The course consists of two parts:

Pharmacological application in special disease states, 4.5 hp This part focuses on the indications and pharmaceutical groups covered by the nurse's prescription right according to guidelines of the Swedish National Board of Health and Welfare. **Drug prescribing, 3 hp** This part covers the prescription process in accordance with current legislation.

Teaching methods

The course is IT based. The teaching is based on a problem-oriented and collaborative approach to learning in which the tasks provide opportunities for the student to take active responsibility for their learning. The used teaching methods are individual study assignments, work in groups, virtual discussions and seminars and lectures.

Examination

Part 1: All the outcomes are examined through a written examination. In case of failure of a written group examination, written individual examinations are required as above.

Part 2:

- Drug prescription is examined through a written individual examination.
- Other outcomes are examined at seminars. In case of absence from seminars, a written complementary assignment should be submitted for approval according to the course director's instructions.

Pass in all parts is required for a Pass in the course.

Students who do not pass a regular examination are entitled to re-sit the examination on five more occasions. Students without approved results after three examinations can be offered to retake the course or parts of it once more; subject to availability. If the student has failed six examinations/tests, no additional examination is given. Each occasion the student participates in the same test counts as an examination. Submission of a blank exam paper is regarded as an examination. In case a student is registered for an examination but does not attend, this is not regarded as an examination.

Other directives

Course evaluation takes place in accordance with the guidelines established by the Board of Education.
