

Course syllabus for

Biomedical project for exchange students, 30 credits

Biomedicinskt projektarbete för utbytesstudenter, 30 hp

This course syllabus is valid from autumn 2009.

Please note that the course syllabus is available in the following versions:

Autumn2009 , [Autumn2014](#) , [Autumn2015](#)

Course code	2EE088
Course name	Biomedical project for exchange students
Credits	30 credits
Form of Education	Higher Education, study regulation 2007
Main field of study	Not applicable
Level	AV - Second cycle
Grading scale	Excellent, Very good, Good, Satisfactory, Sufficient, Fail, Fail
Department	Department of Microbiology, Tumor and Cell Biology
Decided by	Programnämnden för biomedicinprogrammen
Decision date	2009-06-11
Course syllabus valid from	Autumn 2009

Specific entry requirements

The student should have: -A very good command of English or a very good command of Swedish. -At least two years of study at a study programme in Biomedicine or equivalent.

Objectives

The project is intended to give the student in-depth practice in scientific methodology.

Content

Planning, performance and presentation of a defined scientific research project in biomedicine. The project is chosen in consultation with a tutor and a project plan has to be approved by the supervisor. The plan should include the aim of the study and the background and methods to be used. The project should be carried out individually, and include a literature study, appropriate laboratory or theoretical work and finally a written and oral presentation of the results.

Teaching methods

Supervised individually based work.

Examination

Written and oral presentation of the project.

Literature and other teaching aids

There is no literature specified for this course. Please contact the department for more information.
