Content

The course contains two (2) parts

Pedagogy - education and supervision, 1.5 hp On this part, the student may take part of theory of teaching and learning and rhetoric. The student should prepare a psychoeducational effort that should be given individually in the form of oral presentation. The psychoeducational effort is presented in full on an examining seminar, the students are where given detailed feedback on the effort. **Psychological treatment: treatment planning, 4.5 hp** In this part, earlier acquired knowledge in clinical psychology that is relevant is summarised and integrated to start individual client work. The course provides the student knowledge of the assessment procedures that are required for the course in psychological treatment for example through information about/repetition about forms, screening instrument, psychiatric assessment and functional analysis. Focus is on implementation of medical history taking, functional analysis and psychiatric assessment and ability to build a good alliance with the patient during the first part of the client work. During the course, the student also obtains knowledge of central generic parts in psychological treatment, which includes to be able to apply laws and rules ethical guidelines at to for example medical records keeping. The students obtain knowledge of aim of supervision at psychological treatment and which responsibility supervisor and student has.

Teaching methods

The teaching consists of teacher-supervised lectures, films and discussion and practice seminars, with role plays and reflections. Further, the teaching of meeting in a supervisory group with a licensed psychologist/reg psychotherapist is constituted and auscultation on the treatment unit where the client work can be carried out.

On both part 1 and 2 all seminars and lectures are compulsory to participate on. In case of absence from compulsory parts applies the following: The course coordinator decides whether, and if so how, absence from compulsory course elements can be made up. Study results cannot be reported until the student has participated in compulsory course elements or compensated for any absence in accordance with instructions from the course coordinator. Absence from a compulsory course element could mean that the student can not retake the element until the next time the course is offered.

Examination

Part 1 The part of the course is examined through

1. oral presentation of a psychoeducational message on examining seminar that can be given the grade Pass or failed. The oral presentation is assessed vis-à-vis in advance set criteria for passed level
2. writing minor essay around basic concepts within pedagogy.

For Passed on the part is required passed on examining preparing seminar and Accepted minor essay and active participation in all other compulsory activities according to instructions given in course schedule.
