Content

Overview of the process at behavioural-analytical organizational development. Example is taken from different organisations.

Behavioural analysis of key behaviours in organisations is exercised through different written cases and how the different concepts are used to plan the change management be treated.

Methods at behavioural-analytical organizational development are illustrated.

In small groups and under supervision may the students under a fieldwork clarify development opportunities results, measurements and suggest a plan for implementation of an organizational change. The results should be presented in the given organisation and to the fellow students.

The principles of behavioural-analytical leadership are described.

Presentation of the knowledge situation in crisis management is included.

The psychologist's attitudes that consultant is analysed and discussed based on theoretical, methodological and ethical aspects.

Teaching methods

The teaching is given in two forms. Lecture that is to facilitate studies of literature and prepare fieldwork. Compulsory seminars in half group whose aim is mainly to carry out exercises. Fieldwork is carried out in groups of 3-4 individuals where report is handed in and oral presentation is carried out, and student reviewers are appointed. Compulsory attendance for the groups at supervision and presentation of report.

Psychologist's role in dealing with crises in organizations is discussed and practiced in the form of fictitious cases.

Study results cannot be reported until the student has participated in compulsory course elements or compensated for any absence in accordance with instructions from the course coordinator. The course coordinator decides whether, and if so how, absence from compulsory course elements can be made up.

Absence from a compulsory course element could mean that the student can not retake the element until the next time the course is offered.

Examination

- a) At the written examination the student may be given one of the grades Passed or Failed.
- b) Active participation in exercises in seminars. Can be assessed Passed or Failed.
- c) Report and presentation of consultant assignments. Are assessed with the grade Passed or Failed.

To pass all course is required passed on all examinations (a, b and c) and attendance on compulsory lectures/group meetings.

Limitation in the number of examinations:

Students who do not pass a regular examination are entitled to re-sit the examination on five more occasions. If the student has failed six examinations/tests, no additional examination is given. Each occasion the student participates in the same test counts as an examination. Submission of a blank exam paper is regarded as an examination. In case a student is registered for an examination but does not attend, this is not regarded as an examination.

Transitional provisions

The course has been cancelled and was offered for the last time in the spring semester of 2021.

Examination will be provided until the spring semester of 2024 for students who have not completed the course.

Other directives

Course evaluation based on the expected learning outcomes of the syllabus takes place in accordance with KI's local guidelines. Results and possible actions are communicated to the students in the course web page.
