Course syllabus for

Scientific Theory, Research and Evaluation Methods in Psychotherapy 3 - Orientation Cognitive Behavioral Therapy, 2 credits

Vetenskapsteori, forsknings-och utvärderingsmetoder i psykoterapi 3- inriktning kognitiv beteendeterapi, 2 hp

This course syllabus is valid from spring 2019.

Please note that the course syllabus is available in the following versions:

Spring2019 , Spring2022 , Spring2023

Course code	2PT140
Course name	Scientific Theory, Research and Evaluation Methods in Psychotherapy 3 - Orientation Cognitive Behavioral Therapy
Credits	2 credits
Form of Education	Higher Education, study regulation 2007
Main field of study	Psychotherapy
Level	AV - Second cycle
Grading scale	Pass, Fail
Department	Department of Clinical Neuroscience
Decided by	Education committee CNS
Decision date	2018-10-17
Course syllabus valid from	Spring 2019

Specific entry requirements

Passing the courses at year one is a prerequisite for participation in this course.

Objectives

The aim of the course is to give advanced knowledge on the evaluation and assessment of scientific papers, search for relevant information and literature, and scientific writing.

On completion of the course, the student is expected to:

Knowledge and understanding

- Be able to account for systems applicable in meta-analyses and qualitative reviews for evaluation of evidence grade and quality of research papers

Skills and abilities

- Be proficient in searching for information and scientific evidence, and to critically evaluate the quality of studies
- Be proficient in formulating clear research aims for a planned research project based on present evidence
- Be able to compose a project plan for a scientific project which is possible to conduct within the limits of 15 credits

Values and attitudes

- Reflect on ethical aspects of choices of research aims, study design and method

Content

The course comprises: 1) critical assessment of established evaluation principles and applying these on scientific papers, 2) assessment of evidence of psychotherapy research within an area of interest, and 3) decision on whether there is a lack of knowledge in this area, which is possible to target within a project comprising 15 credits.

Teaching methods

Teaching takes place in the form of workshops and recorded lectures.

Examination

The students will present a written project plan at a seminar. Active participation on the seminar is required. The project plan should be handed in 1 week before the seminar in order to be presented.

Transitional provisions

An examination will be made available for a period of one year in the event of the course being discontinued or a new course syllabus being introduced.

Other directives

Course evaluation will be carried out in accordance with the guidelines established by the Board of Education.
