Alternatively a teacher's degree with a focus on sports or a Bachelor's degree in Health Education. In addition, Swedish B/Swedish 3 and English A/English 6 are required with the least grade approved/E.

Objectives

The overall aim of the course is to stimulate a reflective and scientific approach to yogic exercise as a complementary treatment in different diseases. The aim is further to provide skills in instructing and leading groups in yoga. After completing the course, the student should be able to:

- Explain physiological effects and other mechanisms of yogic exercises
- Apply and describe the scientific evidence associated with yogic exercise and its effect on health in various conditions of illness
- Motivate and explain, based on available scientific evidence, the choice of yogic exercises in different diseases

- Instruct and lead yogic exercises used in different diseases
- Select and apply adequate evaluation methods associated with yogic exercises

Content

The course comprises:

- Basic theory and philosophy regarding yoga
- Central concepts in yoga
- Physiology associated with yogic exercises
- Specific effects of different yoga exercises - The role of the body position to activate the nervous, the endocrine and the immune system (based on current scientific evidence)
- Body awareness linked to yogic training
- Different methods used for instructing and leading a group
- The use of various yoga aids
- Application of various yoga positions and parts of yoga programs

Teaching methods

The teaching is based on a problem-oriented and collaborative approach to learning in which the tasks provide opportunities for the student to take active responsibility for their learning. The used teaching methods are lectures, demonstrations, exercises, self-study and peer learning/review. Learning will also be performed via a web-based learning platform.

The course coordinator decides whether, and if so how, absence from compulsory course elements can be made up. Study results cannot be reported until the student has participated in compulsory course elements or compensated for any absence in accordance with instructions from the course coordinator.

Examination

The course is examined as follows:

- Written examination.
- Examination in instructing and leading a yoga program in a group. .

Compulsory moments for approved course are:

Participation in/submission of individual study assignments and group work as well as active participation in seminars.

In order to obtain the grade G on the course, G is required for the individual examination, as well as compulsory moments fulfillment.

Other directives
