When Student Wellbeing Centre Is Open

Management of needlestick, splash, or sharps injuries in students

THE STUDENT

Should immediately:

- Wash and disinfect according to protocol
- Contact the supervisor
- Contact Student Wellbeing Centre (08-524 835 70)
- KI students: report the injury in KI's incident reporting system
  Other students: contact your university

SUPERVISOR/PHYSICIAN RESPONSIBLE FOR THE PATIENT

- Assess the risk of infection with support from the responsible physician at the clinic, based on local routine.
- If possible, order urgent tests for the index patient (hepatitis B+C, HIV).
- If the patient is known to have HIV or hepatitis B, contact the infectious disease physician on call immediately.

For known HIV – contact:
ID Clinic. 2, SÖS
08-12361000 (switchboard), HIV consultant.

For Hepatitis B – contact:
ID Clinic., KS Huddinge
08-12380000 (switchboard) or ID.
consultant DS 08-12355000 (switchboard)

Outside office hours:
ID physician on-call
KS Huddinge 08-123 800 00 (switchboard)

- Inform the supervisor and/or the student of the test results as soon as possible.
