

VT25 5HI020 - "Standardisation Within Health Informatics" course
Preliminary Schedule of the course – 13 November 2024

When: the course starts on **Monday 20th January 2025** and runs until **Sunday 23th March 2025**. **Where:** In Solna Campus. Rooms: To Be Defined (TBD)

Notice 1: This schedule is for course activities, including mandatory activities (i.e., activities that require compulsory attendance). Please save the dates and times for the planned sessions and the mandatory activities (dates and times are presented for Central European Time – CET time zone, i.e., Stockholm time). Sessions with yellow background are planned but need to be confirmed by the lecturers (multiple options are presented). Deadlines and mandatory activities (including assignments and re-examinations) are preliminary. This schedule does not include the time you need for studying lectures, literature, or other learning materials. Lectures can be in person, in the class, online as Zoom meetings (only in special cases), alternatively provided as recorded videos. ☑

Notice 2: Please make sure that you have a personal computer/ laptop available for practicing, as software tools running on personal computers/ laptops will be used in the course.

Notice 3: For the mandatory group assignments, while the teacher will create the groups, students are also allowed to propose their own group formations.
