CV form for the Global Master's Programme in Toxicology 2027/2028

You must fill out this form in English. Please read the instructions before you complete the CV form.

IMPORTANT: You must fill out this form in Adobe Acrobat Reader. Using any other PDF-viewers may lead to conversion problems, and the CV form may appear blank after it has been uploaded to UniversityAdmissions.se.

Do not combine the CV form with other files since it is not possible to upload PDF portfolios to UniversityAdmissions.se/Antagning.se.

If you have any questions regarding this CV form, kindly contact the Admissions Office at: Contact Admissions.

First Name(s)

Last Name(s)

Checklist
Upload the CV form and certifying documents to your account at Universityadmissions.se. Kindly indicate in the checklist below which sections of the CV form you have filled in.

Please read the instructions for how to upload. Check whether you have transcripts of records that need to be sent via regular post or directly from the issuing university to University Admissions.

- ☐ Statement of intent
- ☐ Education (certified according to the instructions at UniversityAdmissions.se)
- ☐ Research experience within academic studies
- ☐ Relevant research or work experience that is not part of your academic studies (certified according to the instructions)
- ☐ Extracurricular activities (certified according to the instructions)

Based on the information in this CV form, and your entire application, an overall assessment will be made.

D1006

Toxicology 2027/2028

Statement of intent

Please describe why you are applying specifically to the Master's Programme in Toxicology. Make sure all text is shown in the text field (do not exceed the text field or change the font size). Please note that this is the only motivation letter/text that will be considered.

D1006

Toxicology 2027/2028

Education

Please state the name of the university where you obtained or are completing your degree and in which country. Please note that you must follow the country-specific instructions at Universityadmissions.se for how to certify your degrees. Make sure all text is shown in the text field (do not exceed the text field). Completion date (year/month/day): if not completed, state the expected completion date.

Bachelor/undergraduate: Name of university, country

Degree, field of study **Completion date (YYYY-MM-DD)**

Master/graduate (if applicable): Name of university, country

Degree, field of study **Completion date (YYYY-MM-DD)**

Doctoral education (if applicable): Name of university, country

Degree, field of study **Completion date (YYYY-MM-DD)**

Exchange studies

Please list any exchange studies during your university level studies. Please certify your exchange studies according to the country-specific instructions at UniversityAdmissions.se. Please mark with an asterisk (*) whether it was a mandatory module of your degree programme.

Other studies (e.g. freestanding courses)

Please provide the name of the course, number of credits and name of the university/educational provider and country. Please certify your freestanding courses according to country-specific instructions at UniversityAdmissions.se.

D1006

Toxicology 2027/2028

Education

Please list the courses from your Bachelor's degree that are related to each of the fields below (list both completed courses and courses that you expect to complete before the end of the current academic year). If you have relevant courses at the Master's level you may also include them, but mark them with an asterisk (*). Please note that you do not need to convert your credits to ECTS credits, but indicate the number of credits/hours for each course as stated in your transcript. For example: Chemistry (5 ECTS). Make sure all text is shown in the text field (do not exceed the text field).

Total number of credits in your bachelor's degree: [ ] and master's degree (if applicable): [ ]

Life sciences	Chemistry	Other relevant courses

Number of credits earned as part of your bachelor's degree that are not listed in the table above (i.e. from courses that are not related to the fields included in the table): [ ]

Number of credits earned as part of a master's degree that are not listed in the table above (i.e. from courses that are not related to the fields included in the table): [ ]

D1006

Research experience within academic studies

Describe any research experience (max. 3), for example your thesis/degree project, that you have acquired (or will acquire before the end of the current academic year) as part of your studies (Bachelor's or Master's level) by completing the form below. Certificates of verification are not required and should not be submitted. Make sure all text is shown in the text field (do not exceed the text field).

% of full time: 100 % is a full work week and equal to 40 hours per week. Example: If you worked on a particular project 4 hours per week, the workload is 10 %.

Title/course name	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, research question, study design and methods.

Title/course name	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, research question, study design and methods.

Title/course name	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, research question, study design and methods.

D1006

Relevant research or work experience that is not part of your academic studies

Describe any research or work experience (max. 6) that you have acquired that is **not** part of your Bachelor's (or higher) degree and that is of relevance for the Master's Programme in Toxicology). Complete the form below for each research/work experience you cite.

You must verify each research/work experience by providing a certificate from your research supervisor/employer (issued in English or Swedish) that contains the official letterhead of the institution/company etc., your supervisor's/employer's name, position, contact information and signature. We do not take comments on your performance into account, only confirmation of your position and duration. Documentation that does not include the information that is listed above will not be accepted.

In the description, include any publications of which you are an author that have resulted from your research experience. State the complete reference with authors, title, year, journal, volume and page numbers. Verify each publication by providing a copy of the first page of each published article (in English) in which the author list, abstract and journal name are shown. Make sure all text is shown in the text field (do not exceed the text field).

% of full time: 100 % is a full work week and equal to 40 hours per week. Example: If you worked on a particular project 4 hours per week, the workload is 10 %.

Title	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, subject area, techniques, responsibilities, publications, etc.

☐ **I have uploaded verifying documents**

Title	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, subject area, techniques, responsibilities, publications, etc.

Continued on the next page.

☐ **I have uploaded verifying documents**

Relevant research or work experience that is not part of your academic studies

Continued from the previous page.

Title	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, subject area, techniques, responsibilities, publications, etc.

☐ **I have uploaded verifying documents**

Title	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, subject area, techniques, responsibilities, publications, etc.

☐ **I have uploaded verifing documents**

Continued on the next page.

Relevant research or work experience that is not part of your academic studies

Continued from the previous page.

Title	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	

Brief description of project, work tasks, responsibilities, etc.

☐ **I have uploaded verifying documents**

Title	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)	% of full time	Institution, company, etc.

Brief description of project, work tasks, responsibilities, etc.

☐ **I have uploaded verifying documents**

Extracurricular activities

Describe relevant extracurricular activities that you have performed (max. 3) that show ambition and initiative. Examples of such activities could be experience from serving on boards or committees, running projects, leadership, etc.

You must verify each activity you describe by providing a certificate (issued in English or Swedish) containing an official letterhead, the name, position, contact information and signature of the person providing the certificate, and confirmation of your position and its duration. Only verified activities will be considered.

Make sure all text is shown in the text field (do not exceed the text field).

Activity	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)

Brief description

☐ **I have uploaded verifying documents**

Activity	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)

Brief description

☐ **I have uploaded verifying documents**

Activity	Start date (YYYY-MM-DD)	End date (YYYY-MM-DD)

Brief description

☐ **I have uploaded verifying documents**

Karolinska Institutet

Overall qualitative assessment model –

Global Master's Programme in Toxicology 2027/2028

Each applicant is assessed independently of other applicants on a scale of 10-200.

Points are awarded only for merits that are described in English in the appropriate section of the CV-form and that have been certified according to the instructions in the CV-form.

An applicant is awarded points based on the average of the points awarded by each assessor of the application, according to six different categories. The current merit evaluation model for the Master's Programme in Toxicology is described below.

Statement of intent Maximum points: 40 Minimum points: 0		
Excellent	40	Very well written and relevant with a clear ambition to study toxicology
Very good	30	Well written and with a clear ambition to study toxicology
Good	20	Well-formulated, subject-specific, and shows some ambitions
Acceptable	10	Not well written and/or lacking ambition for studying in the Toxicology programme
Missing	0	Missing, not subject-specific, or poorly written with poor English
Subject focus of bachelor's/undergraduate level studies Maximum points: 60 Minimum points: 10		
Very relevant	60	Optimal combination of courses mainly in cell and molecular biology, human physiology and pathology and chemistry in undergraduate degree (possibly also from supplementary courses in addition to the degree, awarded by a university)
Relevant	40	Good combination of courses described above, but lacking one part
Quite relevant	20	Good combination of courses, but to a lesser extent than above, or unbalanced combination of courses (e.g. mostly biology or mostly chemistry)
Satisfactory	10	Undergraduate education containing only chemistry or biology, or courses that are largely irrelevant, as a basis for a Master's degree in toxicology

D1006

Toxicology 2027/2028

Research experience (extracurricular) Maximum points: 20 Minimum points: 0		
Extensive research experience	20	At least one year of documented extracurricular research experience or at least one publication as first, second or last author in an international and peer-reviewed journal
Some research experience	10	Less than one year of documented extracurricular research experience. For example, participated in research activity (e.g., research assistant), scientific abstracts, publications (with authorship not as first, second or last author)
No	0	Research experience is missing, too limited, or unverified
Relevant work experience (extracurricular) Maximum points: 10 Minimum points: 0		
Relevant experience	10	More than one year of documented relevant work experience
No	0	Professional experience is too limited, missing, irrelevant or unverified
Ambition (extracurricular activities) Maximum points: 10 Minimum points: 0		
Ambitious and/or initiative-rich	10	Documented experience of serving in leadership positions in student committees and/or other types of boards and committees.
No	0	Leadership experience is too limited, missing, irrelevant or unverified
Overall assessment of the applicant This is based on a comprehensive evaluation of all verified qualifications. In addition to the other assessment criteria, factors that may contribute to a very strong overall evaluation include: excellent academic performance, demonstrated research experience within the education, relevant coursework or projects in toxicology, high motivation and commitment, very good proficiency in English, and relevant master's-level or other higher education completed in addition to the bachelor's degree. Maximum points: 60 Minimum points: 0		
Excellent applicant	60	
Very good applicant	40	
Good applicant	20	
Satisfactory applicant	10	
Acceptable applicant	0
