### 1. Description of any changes made since last course event (based on for example feedback from previous students)

No changes compared to autumn 2023.

### 2. Brief summary of the KI survey

*(Based on students' quantitative answers and major feedback from free-text answers)*

The students appreciate the course although it is quite challenging due to its start just before Christmas. Also, students have very different levels of background knowledge in histology and pathology.

**3. Course coordinator's reflections on the course and the results:**

*(to be published on the course web)*

The course works well, but its integration into the Target Organ Toxicology course from autumn 2026 will further improve its pedagogical quality.

**4. Other comments:**

**5. Course coordinator's conclusions and suggestions for changes:**

No major changes. The course will be given for the last time in the autumn 2025.
