How and when is feedback of KI survey results given to students? Published online and presented for next group of students at start of the course		

1. Description of any changes made since last course event (based on for example feedback from previous students)

Due to the closure of the animal studies at RISE the appreciated study visit there could not longer be organised. Instead, a one-day study visit to AstraZeneca in Gothenburg was arranged. The remaining part of the course was unchanged.

2. Brief summary of the KI survey

(Based on students' quantitative answers and major feedback from free-text answers)

The students appreciated the course although the extent of group work could be challenging it also reflects real work. Students appreciated the study visits to RISE and AstraZeneca. Some students requested more clear instructions, but a main purpose with the course was that students should discuss and develop the process themselves (based on previous knowledge and training).
