1. Description of any changes made since last course event (based on for example feedback from previous students)

No major changes compared to VT25. The audience for the popular pitches was however bachelor students in biomedicine this year.

2. Brief summary of the KI survey

(Based on students' quantitative answers and major feedback from free-text answers)

As usual, all students were very happy with spending 6 months on a project of their own interest. A few students expressed that the monthly meetings and assignment on scientific writing was not so useful and interfered with their projects. However, most students appreciated these meetings and how they prepared them for the writing and final presentations. They also appreciated to meet with their classmates now and then.

KI or programme-specific question	Average result (1= totally disagree, 6= totally agree)
The course was designed in a way that provided me with opportunities for active learning.	5,8
I felt included and respected during the course.	5,9
The course as a whole was good.	5,8
To what extent do you feel that the workload during the course was reasonable in relation to the extent of the course/number of credits awarded? (1= far too little, 2= to little, 3= appropriate, 4= too much, 5= far too much)	3,1
When/if I had questions or problems with the course content, I felt that I could turn to my teacher/supervisor for guidance.	5,9

3. Course director's reflections on the course and the results, the conclusions and suggestions for changes:

(to be published on the course web)

The course was again successful and most students were happy with the structure and schedule. There is no need for any major changes for next year.
