

# IN CASE OF AN INJURY

## Management of needlestick and similar injuries

NB! Friday evenings – Follow flowchart for when the Student Health Centre is closed

**If the Student Health Centre is not staffed,** leave a message and we will return your call!  
**+46 (0)8 524 835 60**

**THE STUDENT**

**Should immediately in case of needlestick injuries:**

- Wash and disinfect according to protocol.

**Thereafter:**

- Contact your supervisor
- Contact the Student Health Centre (+46 (0)8-524 835 60)
- Submit completed needlestick injury report (stick-/skärskadejournal) to the Student Health Centre
- Report the injury in the KI incident reporting system

**THE SUPERVISOR / TEACHING STAFF**

- Initiates risk assessment with support of attending physician in the clinic.
- Ensures that the Student Health Centre receives de-identified test results on source patient\* (via needlestick injury report).

\*Source patient (index patient): current individual who may be the source of infection
